National Nematological Research Centre, University of Karachi, Karachi-75270, Pakistan

Abstract

Two known species of the genus *Mylonchulus* (Andrassy, 1958) and one known species of the genus *Miconchus* (Andrassy, 1958) have been reported for the first time from Pakistan. Brief description and illustration are given of *Mylonchulus minor* (Cobb, 1893) Andrassy, 1958, *Mylonchulus paitensis* (Yeates, 1992) and *Miconchus dalhousiensis* (Jairajpuri, 1969). The genus *Miconchus* has been found as a new record from Pakistan.
